*Wood Carvings & Carved Mouldings*

Grand Rapids, Michigan

In presenting this, the latest supplement to the "Book of Carved Wood Decoration", we are offering you, in machine made ornamentation, the results of the most successful period of development of our existence. Two major objectives have been constantly in mind during the period of experimentation and research, incident to the successful completion of new machines and methods.

The first of these has been to produce carved wood mouldings at lower prices and still maintain quality. Our success in this field has been outstanding and we offer carved mouldings at prices comparable with the cost of embossed and composition decoration.

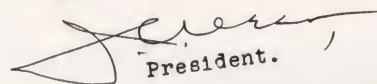

The second objective has been to better reproduce the traditional designs and to create new designs to meet the rapidly changing style trends of the last few years. The wide range of design in the patterns illustrated bespeak the success on this point.

Over eight hundred patterns are illustrated, many of them presented to the trade for the first time in this publication, - others not heretofore catalogued but previously sampled to the trade, - and, finally, still others that have appeared in Supplement "B" and now are incorporated in this book for convenience.

The usual variety of sizes have been, or will be, made in the new designs. Each pattern is available in the standard cabinet woods. Changes to adapt the patterns better to your purpose will be carefully considered on request and full report made to you of the feasibility of the changes desired.

Sincerely,

KLISE MANUFACTURING COMPANY, Inc.

  
President.

J.C.Veen/rr  
October 1, 1939.

## SUPPLEMENT "D"

to

THE BOOK OF CARVED WOOD  
DECORATION

## GENERAL DATA

A brief moment to peruse the following information will make your use of these pages more efficient, will eliminate lost time through misunderstanding and enable us to serve you better.

**Illustrations** — all mouldings are shown in half size. Measuring the cuts will enable you to determine size of the pattern repeat, the widths of the carved member, etc. If full size detail is needed, let us send you actual samples.

**Sizes** — the sizes listed under each illustration have been selected as those most used. In some instances, other sizes are available. If you will submit sketches of your special needs, we will quote prices and submit the required data.

**Samples** — if samples are desired, please advise pattern number, width, thickness and wood. The samples will be forwarded promptly and without charge or obligation.

**Prices** — the large number of designs, sizes and woods make the preparation of a complete price list so difficult a problem that we are not at this time attempting to furnish a printed price list. Prices will be submitted promptly on request — together with the samples, so you may see exactly the detail, the grade of material and workmanship you will receive — a most important point in considering price. In requesting samples, be sure to state pattern number, width, thickness and wood.

**When ordering** — pattern number covers design only — be sure to state pattern number, width, thickness, wood and quantity.

**Index** — on pages 54-55-56 and 57 is a complete index to assist you in locating the illustration of any particular design.

**Other products** — pages 58-59 and 60 outline, in brief detail, the services in carved wood ornamentation that Klise furnishes, in addition to the moulding, ropes, beads and rosettes illustrated.

## HAND CARVING

Our handcarvers are all masters of their trade. Men experienced in making machine models, casting models, or individual pieces from drawings.

And, of course, touching up multiple carvings, where some handwork is desired, but price will not allow a full hand-trimmed job.

### MULTIPLE CARVING

Also called multiple spindle and machine carving. Machines running from eight to eighteen heads or spindles, permit the selection of the machine of proper size to handle the individual job most economically. Where several pieces of identical detail are needed, multiple carving is usually the lowest priced.

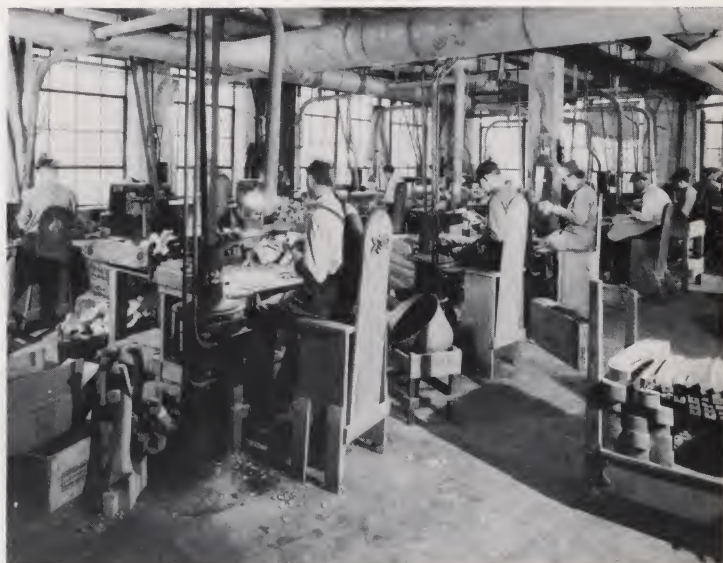

Our model department will produce the necessary master patterns from your drawing — we can supply the complete job, including stock, if you desire, or carve stock, supplied by you, machined, ready for carving.

### SPINDLE CARVING

A large battery of spindle carving and sanding machines is manned for requirements in this type of carving.

We are ready to serve you on single pieces or large quantity orders. Spindle carvings made to order only, customer supplying design.

### SHAPING

The problem of details requiring special shaping is solved by utilizing the service we offer here.

An experienced personnel, many special machines, in addition to the usual complimentary equipment, enable us to handle skillfully the unusual problem.

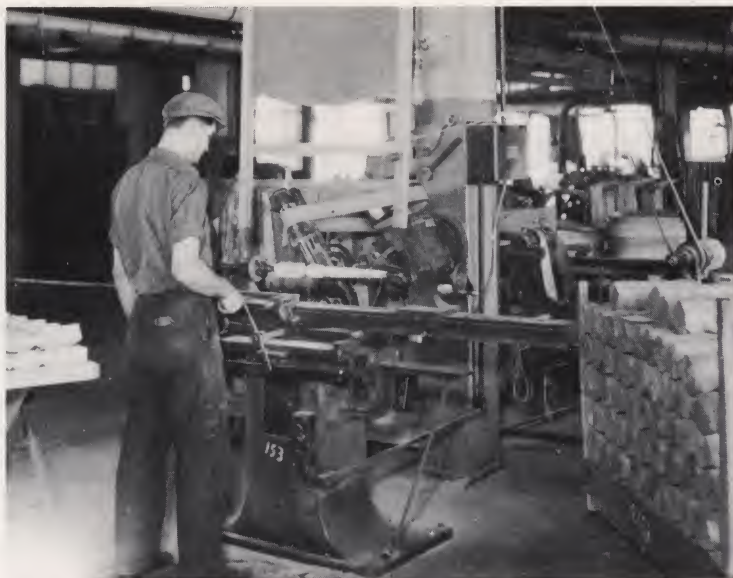

## TWISTWORK

Twisted or "roped" details from diameters of  $\frac{1}{8}$ " up to 10" are within the range of the twist machines, our own plant.

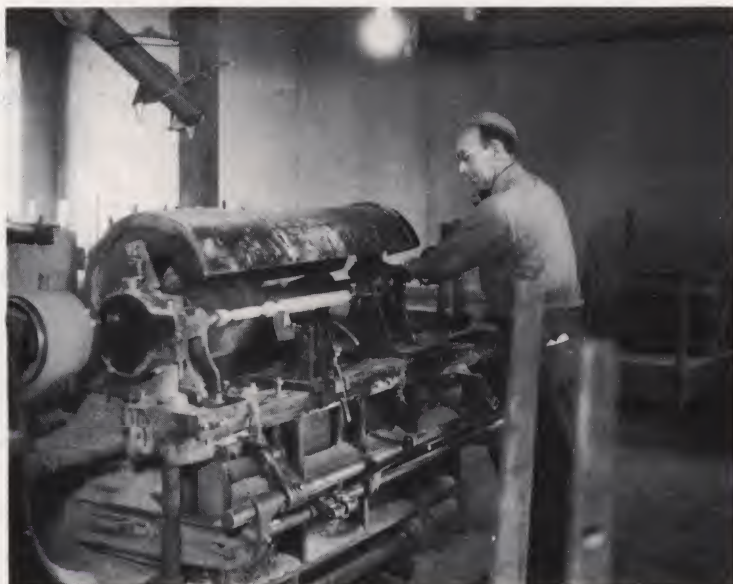

We are prepared to supply the somewhat unusual open twist.

## TURNING

Hand, novelty lathe or automatic turning service awaits your specification.

All turning details executed to customers' design and specification.

## MATERIALS OTHER THAN WOOD

Klise also works in materials other than wood. We have produced carved decoration in Cork, Celotex, Linoleum and Plastics.

Submit samples of materials and designs required for study and report.
